Microsoft Power BI
Data Analyst Associate

EDUCATION

AHMEDABAD UNIVERSITY
BTech - INFORMATION AND
COMMUNICATION TECHNOLOGY
June 2018 | Ahmedabad, India
(3.5 CGPA / 4.33)

EXPERIENCE

FLEXERA SOFTWARE INDIA LLP | DATA ANALYST | DATA ENGINEER

August 2022 - Present | Bangalore, India

- Developed ETL pipelines to integrate data from multiple sources into a data warehouse by ensuring efficient data consolidation and accessibility for analytics and reporting.
- Closely works with Business stakeholders, understand the business need, and builds the Power BI reports & train them to self serve BI requirements.

AIMDEK TECHNOLOGIES | DATA ANALYST

April 2018 - July 2022 | Ahmedabad, India

- Work with offshore clients and provide key insights into their business
- Led multiple in-house projects and managed 10+ developer teams.
- Embed Power BI reports in Customer's Web App using Power BI REST APIs
- Develop Standup Scrum bot for Microsoft Teams using MS Bot Framework

PROJECTS

PAY GO BILLING INVOICE AUTOMATION | MAY'25 - OCT'25

- Developed MuleSoft ETL jobs to ingest product usage data from AWS S3, apply business logic, and transforme data for invoice generation.
- Eliminated 4 days of manual work for a team of 5 by automating processes
- Contributed to the opensource MuleSoft Parquet Connector by adding Java 17 compatibility and ZSTD compression support.

Tech Stack

- Mulesoft • AWS S3 • SQL Server

SALESFORCE ATTACHMENTS MIGRATION | APR'24 - JUNE'24

- Developed Mule ETL Application to migrate Notes & Attachment from one Salesforce to another Salesforce account.
- Successfully migrated 756 Gb of files and map to same object

Tech Stack

- Mulesoft • Salesforce

MARKETING DEMAND GENERATION REPORT | MAY'23 - APR'25

- Implemented Lead to the Opportunity life cycle in an informatics way.
- Analyze the data, make transformations in SQL Server, and developed KPIs that helps to better analyze Lead/Opportunity key matrix
- Identified marketing-sourced opportunities and developed a report to attribute revenue generation credits to the marketing team.

Tech Stack

- Power BI • MS SQL Server • Salesforce

SELLERS SALES PRODUCTIVITY REPORT | AUG'22 - APR'23

- Developed a report for the sales team to analyze new sellers' productivity.
- Analyzed ramp-up time trends for new sellers and developed visualizations to compare year-over-year performance.

Tech Stack

- Power BI • MS SQL Server
